

## Information on data processing and declaration of consent for processing data in relation with the event

We would like to inform you that photographs and video films/recordings may be made at the events organised by the Lake Balaton Development Council and its operational body, the Lake Balaton Development Coordination Agency, which may be published on the media platforms (official website, Facebook page and YouTube channel) of the Agency.

By signing the attendance sheet, you give your consent for being filmed and photographed and publishing them, for recording and processing your personal data given in the attendance sheet, and sending information letters and invitations for you in the future.

By signing the attendance sheet, or by joining the online event, you give your consent for the Lake Balaton Development Council and its operational body, the Lake Balaton Development Coordination Agency, as Data Processors, to manage your personal data as described below.

Data processing is carried out for the following purposes: indicating preliminary the intention to participate at the event, identifying the person attending the event, keeping contact with the participant, documenting the event, disseminating and providing information on events organised by the Data Processor.

Scope of processed data: name and position of the participant, name of the represented organisation, e-mail address, car number plate (if the participant arrives by car and requires a parking space) and image.

Legal basis for data processing: your consent, which you have given by signing the attendance sheet.

Duration: Documents are stored for a period determined in the filing and archiving regulations and relevant internal rules.

Please note that the documents may be sent to third parties when the cost of the event will be reported and accounted.

You may ask for information on processing your personal data, and may request the rectification and deletion of your personal data (except for data processing prescribed by law) by contacting to the Data Processor:
